raghavramani2004@gmail.com | +91-8003708227 | github.com/Raghav1378 | linkedin.com/in/raghavramani | raghav-ai-portfolio.vercel.app | Jaipur, India

PROFESSIONAL SUMMARY

AI Engineer specializing in multi-agent systems, RAG pipelines, and production LLM applications. Architects end-to-end intelligent systems from embedding ingestion and vector retrieval to LangGraph orchestration and FastAPI deployment. Experienced across the full GenAI stack: prompt engineering, hallucination mitigation, and local/cloud LLM inference. Strong ML foundation in anomaly detection, NLP, and fraud detection, evaluation metrics, hallucination measurement.

EDUCATION

JECRC University — B.Tech, CSE (AI & ML)

Aug 2022 – May 2026

Jaipur, India | Specialization: Artificial Intelligence & Machine Learning

WORK EXPERIENCE

AASVAA Innovation Labs — AI/ML Engineer Intern

Early 2026 – July 2026

Remote

- Legal AI: 7-stage multi-agent pipeline (FastAPI + LangGraph + Qdrant). Hybrid retrieval: Tavily + SERP API + 70K+ Supreme Court vectors. Hallucination guard, confidence scoring. github.com/Raghav1378/Legal-AI
- RITI Platform: AI chatbot layer ("Ask Planning Intelligence"). Hindi NLP, live Supabase queries (41 districts). PDF reports, sector drilling. manthaaan-os-riti.vercel.app

Klear AI — AI/ML Engineer Intern

Aug 2025 – Nov 2025

Remote

- RAG pipeline: LangChain + Qdrant + Groq Llama 3.1 70B. Embedding optimization, retrieval tuning.
- GenAI + ML projects: Prompt engineering, CNN image detection, model experimentation.

Accio Job — Teaching Assistant (Java)

Aug 2023 – Feb 2024

Remote

- Co-delivered Java + OOP curriculum to 50 students. Led doubt sessions, revision classes.
- Taught: Java fundamentals, OOP concepts, code examples.

TECHNICAL SKILLS

Languages:	Python · SQL · JavaScript (intermediate)
AI & Agents:	LangChain · LangGraph · MCP · RAG Pipelines · Multi-Agent Systems · Prompt Engineering · AI Agents
Inference & APIs:	Groq API · Gemini API · Ollama · Claude API · OpenAI-compatible endpoints
Vector DBs & NLP:	Qdrant · ChromaDB · FAISS · Hugging Face · Sentence Transformers · spaCy · NLTK
Backend/Frontend:	FastAPI · Flask · Async Python · Streamlit · Machine Learning · Deep Learning

SOFT SKILLS

Communication: Hindi-English fluent, stakeholder coordination

Leadership: Mentored 50 students at Accio Job, led revision sessions

Adaptability: Fast learner, multi-project context switching

PROJECTS

Manthan RITI Platform

<https://manthaaan-os-riti.vercel.app/>

- Built "Ask Manthaaan OS" AI chatbot: Natural language queries (English/Hindi) over live Supabase (11.87L aspirations, 41 districts, 10 sectors). Identifies highest-priority aspirations by sector + district. Ranks by funding status (fast-track/funded/review) and baseline coverage gaps.
- Engineered aspiration-driven budget allocation engine: AI calculates optimal fund distribution across sectors based on aspiration density, criticality scoring, and district baseline deficits. Hindi-English dual-language recommendations.
- Automated report generation: Produces district/block/GP-level strategic briefs with budget allocation breakdowns, sector-wise priority rankings, aspiration convergence roadmaps. Deployed: 42 PDF reports, 9-sector KPI dashboards, 95.87% uptime.

Legal AI System — Indian Supreme Court Research Assistant

github.com/Raghav1378/Legal-AI

- Architected 7-stage deterministic multi-agent pipeline (FastAPI + LangGraph + Qdrant + Groq Llama 3.1 70B + Tavily)
- Implemented hybrid retrieval: Tavily for real-time research + Qdrant semantic search. Hallucination guard eliminates unsourced claims. Confidence scoring [30-95].
- Built hallucination guard and self-healing JSON engine; PII-scrubbed ingestion via PyMuPDF + Sentence Transformers.
- Results: 3.2% hallucination rate, 0.91 retrieval precision, <2.2s latency.

ArthMitra — AI-Powered Financial Security Platform

github.com/Raghav1378/Arthmitra

- LangGraph Supervisor routing queries across specialized agents (Deepseek-R1, Qwen2.5, Gemma3, Groq Llama-3.1) for tax, security, and financial guidance.
- Shield ML: TF-IDF + LR (SMS scam detection), Random Forest (transaction risk), One-Class SVM + Isolation Forest (anomaly detection). Flags UPI ₹1 pings, odd timing, frequency spikes.
- LangGraph Supervisor + 3-agent swarm (Auditor/Shield/Mitra). Hybrid data: Real-time APIs (Tavily/SERP) + Custom RAG
- Financial health scorer, credit card checker, loan availability classifier. Next.js glassmorphism UI, interactive charts.

CERTIFICATIONS & ACHIEVEMENTS

- LangChain Academy — 9 certifications across LangChain, LangGraph, LangSmith, and advanced agentic architectures.
- SQL for Data Analysis — Intellipaat (joins, window functions, subqueries, aggregations).
- GSEA winner for Suraksha Nivesh
